Kindness is better than politeness, and industry better than great learning.

An exciting game of baseball was played on Thursday night one mile south of the Floral School House, between Tan-y-Bryn and Floral resulting in a score of 25 to 12 in favor of Tan-y-Bryn. The umpire giving entire satisfaction.

After deciding to publish a paper at the Illinois State Penitentiary at Joliet to be edited by the convicts, the prison officials were somewhat embarrassed—not to say surprised—to find there was not a printer among the 1,500 inmates.

The fly's attack is insidious and therefore the more to be guarded against. He buzzes into the houses, drops his deadly disease germs where they will fertilize and buzzes off again to pick up a fresh cargo. Swat him, he is your enemy.

Because the fly is small and does not roar like a lion or devour its prey at a mouthful, mankind pays little attention to it. But the fly is as deadly a foe to civilization as any of the pests of more fearsome aspect, which man makes it his business to exterminate.

We have seen parents careful to teach their little ones to say "thank you" and "excuse me," but forgetful to train them to lend a helping hand, or do a kind act for one in need.

If you want to Sell your Land, List it with me at once I Have numerous enquiries.

If you require to renew your old Loan or take out a new one, call and see me, as I can save you money. I represent The Canada Life, and others.

CHAS. HULTGREN.

If you would increase your happiness and prolong your life, forget your neighbor's faults. Forget the slander you have heard. Forget the temptations. Forget the fault-finding and give a little thought to the cause that provoked it. Forget the peculiarities of your friends and only remember the good points that make you fond of them. Forget all personal quarrels or histories that you may have heard by accident, and which, if repeated would seem a thousand times worse than they are. Blot out as far as possible the disagreeable things of life--they will come; but they will only grow larger when you remember them. Obliterate everything bad from yesterday, start out with a clean sheet for today, and write upon it for sweet memory's sake only those things that are lovely and lovable.

It pays to read the advertisements of enterprising home merchants. They are the people who make it possible to have conveniences right at your door, so to speak.

Will The MERCHANTS BANK OF CANADA Increase its Dividend

The statement which the General Manager of the Merchants Bank of Canada has just issued to its shareholders, shows that the Bank's reserve now stands at \$7,000,000, which also the amount of its paid up capital.

Will the Shareholders now come in for a share of the profits, earned on this accumulation?

Bank Managers in Canada, have very rightly aimed at accumulating in good times a reserve which would enable them to weather any ordinary business stress without having to curtail dividends, but the present strong position of the Merchants Bank of Canada, its good percentage of quick assets, its high standing among the community, would seem to justify at least a bonus distribution.

Canada has a right to be proud of its Banks, and under the present management, the Merchants Bank of Canada, has increased its right to be considered one of the pillars, of the most financial institutions of the country.

"I saw you playing with the Blitherson boy again this afternoon. Haven't told you a dozen times that you must not do that? He is not a fit companion for you. His people are not our kind."

"Yes, they are, mother. He says his father has just mortgaged their home to buy an automobile, too."—Chicago Record-Herald.

A Story About Rodin

The Cri de Paris tells a most amusing story. It true, about Rodin and some unnamed rich American woman who had selected him to make a statue of herself, full length and so far as possible a portrait. She had posed ten times in antique costume when Rodin told her that he did not need any more and that he would finish the work at his leisure. When the American came again she found to her surprise that the head of the statue bore no resemblance whatever to her. She complained bitterly that to one would ever recognize her. "It is true," said the great sculptor dreamily. "Your head did not inspire me at all. At first I thought I would not put any head on the statue, but after I had thought it over carefully, in order to offend you I put in the place of your face that of Mme. de R. She had ordered hers of me, but never paid for it. At any rate, you will gain much by this change!"

Minard's Liniment Lumberman's Friend.

The Superior Subordinates

"There is no more valuable subordinate than the man to whom you can give a piece of work and then forget about it, in the confident expectation that the next time it is brought to your attention it will come in the form of a report that the thing has been done," says Gifford Pinchot. When this matter quality is joined to executive power, loyalty and common sense, the result is a man whom you can trust. On the other hand, there is no greater nuisance to a manager than a subordinate who is heavily burdened with the direction of affairs than the well-satisfied assistant who is continually trying to get his chief to do his work for him, on the feeble plea that he thought the chief would like to decide this or that himself. The man to whom an executive is most grateful, the man whom he will work hardest and value most, is the man who accepts responsibility willingly."—Engineering News.

Queen Tallmans in Malta

There are still to be found in Malta a number of small stones shaped and colored like the eyes, tongues and other parts of serpents. The superstitions among the Maltese connect these with tradition that St. Paul when shipwrecked was cast on their island, and it was there that while lighting a bundle of sticks for a fire a viper fastened on the apostle's hand. St. Paul calmly shook the reptile off into the flames, and no harm followed. The natives wear these stones as talismans, in which character they suppose them serviceable in warding off dangers from snake bites and poisons. They are found in St. Paul's cave, embedded in clay, and are set in rings and bracelets and when found to be in the shape of a tongue or liver or heart are hung around the neck.

Seems Like a New Disease

Now to the man who has never known the pain of a sore corn is suffering he endures until he gets relief and cure by using Putnam's Painless Corn and Wart Extract. It acts like magic, cures, heals, cures, does it all in twenty-four hours. There's a whole power of merit in Putnam's Painless Corn and Wart Extract. Try a 50c bottle.

Temperance Reform in England

Temperance reform moves in Great Britain, but it moves slowly. A private member of parliament recently brought forward a measure known as the sale of intoxicating liquors on Sunday bill, which proposed that all licensed premises in England should be closed on Sunday except for three hours between noon and 10 p.m. in the provinces and for four hours between noon and 11 p.m. in London; with various other restrictions on the sale of drink on Sunday. To the resident of Canada or the United States this does not seem to be very drastic but there is still considerable number of persons who consider such a proposal an interference with the "liberty of the subject," and the bill was thrown out by a majority of twenty-two. Many members shirked the division. The government took no interest in the measure, only three ministers being present to vote for it when the division was taken, while Mr. Bona Law, and all his Unionist supporters voted against it. The "trade" still has great political influence in England.—St. John Globe.

SAVE THE CHILDREN

Mothers who keep a box of Baby's Own Tablets in the house may feel that the lives of their little ones are reasonably safe during the winter season. Stomach troubles, cholera infantum and diarrhoea carry off thousands of little ones every summer, in most cases because the mother does not have a safe medicine at hand to give promptly. Baby's Own Tablets cure these troubles, or if given occasionally to the well child will prevent their coming on. The Tablets are guaranteed by a government analyst to be absolutely harmless even to the newborn babe. They are especially good in the summer because they regulate the bowels, keep the stomach sweet and pure. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Back to Nature

"Hold, hold!" cried the star. "Bill boards in our meadow scene! That's a jarring commercialism a bit too far."

"Commercialism nothing," said the stage manager. "I'm a man of I am, and I want that meadow to look like a genuine one."—Tit-Bits.

He Was Absolved

A smart youth, who had tarried on his way to school playing marbles, had soiled his hands badly during the game. Just before going into school he managed to perform a school boy toilet upon one hand. For being late he was called out for punishment, and naturally put forward the cleaner hand, although this was far from its natural condition. "Well," said the teacher, in disgust, "if you can show me a dirtier hand than that in the whole school I will let you off." Instantly the little fellow put forth his other hand. "Here you are, sir," he said.

An Always Ready Pill

To those of regular habit medicine is of little concern, but the great majority of men are not of regular habit. The worry and cares of business prevent it, and out of the irregularity of life comes dyspepsia, indigestion, liver and kidney troubles as a protest. The run-down system demands a corrective and there is none better than Farmalee's Vegetable Pills. They are simple in their composition and can be taken by the most delicately constituted.

One gloomy day a young countryman went to a dentist to have a tooth extracted. Seeing the patient's obvious nervousness he dentally inquired: "Would you like gas?"

"Would I like gas?" Of course I'd like gas," exclaimed the irate patient.

More Your Increase in Weight

While Building up the System with

GAINED 30 POUNDS

Was thin, pale and weak. Had frequent headaches and stomach troubles. Cured by Dr. Chase's Nerve Food.

Mrs. H. Laich, Cannington Manor, Sask., writes—

"You will remember me writing you last spring. Well, I gave up my doctor and began using Dr. Chase's Nerve Food. This treatment cured me rapidly and I was soon myself again. I was pale, thin and weak, suffered from stomach troubles and liver complaint and frequently had sick, nervous headaches.

I was surprised to find that in a few weeks time I had gained 30 pounds in weight. I never felt so strong and well in all my life. Headaches never bother me any more and I am grateful for the cure. If people would only give this medicine a fair trial they would certainly be cured."

You can feel yourself gaining in strength and vitality while using Dr. Chase's Nerve Food. You sleep better, eat your meals with more relish, and digest them without discomfort. But it is also interesting to note your increase in weight for the good point is that your system is obtaining additional nourishment from this food cure and that new, firm flesh and tissue is being added to the body. Rodney Picnic.

The second annual picnic of the Rodney School District was held on Friday afternoon, July 10th, at the Rosebud Home Ranch.

A goodly crowd gathered during the course of the fine sunny afternoon. A complete programme of athletic sports, consisting of all kinds of races for young and old, thread and needle race, egg and spoon race and jumping contests for the men, were carried out with unanimous support. About 5-30 everybody sat down to a sumptuous picnic supper, after which horse races and a ball game between Rodney and Hawke's ball teams, in which Hawke's came out victorious. Everybody going home feeling they had had a very enjoyable afternoon.

The biggest average-sized farms are in South Australia, where the average squatter holds 78,000 acres.

Wrestling Match.

Undoubtedly the best wrestling match that has ever taken place in Crossfield and district, both for science and durability was promoted by F. Brown, of Acme, took place in the I.O.O.F. Hall, on Friday evening last. About 60 witnessing the bout, which was for a purse of \$100 side bet, best 2 out of 3 falls. The contestants were Walt Anderson, of Gleichen, Alta., weight 190lbs., and Cris Thompson, of Nebraska, U.S.A., 170 lbs. Major R. L. Boyle was the referee. The men took the mat at 8-10, and after about ten minutes earnest work Thompson squirmed out of a very difficult position, the minutes rolled by with each working hard to get the other, excitement running high amongst the crowd, and when about 45 minutes had passed Thompson almost had his man pinned, but they happened to be a little off the mat the referee bringing them back. After a lot of defensive work on Thompson's part Anderson finally got his shoulders down with an head and arm lock. Time 1 hour and 40 minutes.

The men took the mat again to decide the second fall, after five or six minutes of an interval and Anderson was lucky enough to pin his man for the second time with the chancery and bar hold in 3½ minutes.

Competitions Afford Good Advertising for Farmers.

Consumers' League Arranges to Get a Touch With Producers.

When the enterprising farmer sows his grain in the spring, he has in mind the harvest, and after the harvest the marketing of his produce. He naturally wants to have the best return possible for his labor, but sometimes he is not able to get in touch with just market. The farmer who specializes on some particular branch of agriculture is bound to produce a high grade of stock or grain, of roots or dairy produce, and should be able to command a higher price than he would for a low grade product.

Recognising this fact, the Edmonton Exhibition Association has steadily increased its classes in all branches of farming, and has added to its prices to encourage bringing the best out of Alberta's soil. The producer who brings his produce to compete with those of other producers will find that this open competition thus afforded is the best advertising he can get, and if his products are worthy he is assured of a permanent market.

One exhibitor of last year writes: "I took the prizes for white potatoes last year, and this year have had orders for seed potatoes of this variety from all over the province."

The Edmonton Consumers' League will occupy space in the Stock Pavilion, and are arranging a series of talks with the idea of bringing together the producer and consumer, in order to arrange for marketing farm and dairy produce in a way whereby both producer and consumer will secure the best possible returns.

The classes for Domestic Manufactures and Dairy Produce are extensive, and afford the housewife ample scope to show her skill in preparing table delicacies in kitchen and dairy.

The Edmonton Handicrafts Guild is offering a prize for the best hand loom woven material, and it is expected that the expert weavers of all nations who have come to Canada, will compete in this class.

August 10th-15th are the Exhibition dates, and all entries close on July 27th. Any one desiring price lists or further information may secure same by applying to W. J. Stark, Manager, Edmonton, Alberta.
